I learned so much spiritually for me to guide and enhance the lives of people. I used to give readings, but felt unsure of how to develop it, now I feel confident and able to talk about the angels and meditate. I have you to sincerely thank for that :-)) - **Karen**

One of the most informative courses we have attended. Both of us had a really good time, especially due to the friendly atmosphere that came with the small class size, and the fact the class was taught in a fun way to keep you going all day. We learnt a lot more than expected, being given plenty of opportunity to practice using the cards ourselves, allowing us to develop our own abilities with guidance. Much more worthwhile than any book you will buy! -**Suzy and Melissa**

You showed me just what is possible and to say that I was amazed at what I found I was able to do, would be an understatement - **Chris**

Outstanding - It has made me more aware - **Lorraine**
